Tochukwu John Onuabueke

FRONTEND WEB DEVELOPER

Email: tochukwujohn24@gmail.com   **Website**: https://xeuxdev.vercel.app

Github: https://github.com/Headbwoi   **Twitter**: https://twitter.com/headbwoi_1

Profile

I am a self-taught Frontend Developer with a passion for building interactive user interfaces and experiences using the **latest** and most **efficient technologies** and design systems available. My goal is to deliver the best, easiest, and most functional long-term solutions that meet the client's requirements.

LANGUAGES	FRAMEWORKS		TOOLS	
-TypeScript	- Next.js	- ExpressJs	-Vs Code	-Firebase
-JavaScript	- React.js	- Axios	-MongoDB	
-HTML	- Node.js	- Framer-motion	-Git	
-CSS	- TailwindCSS	- Redux	-Figma	

Projects

Belle-Full

A meal App for everyone, users can:
- View the landing page.
- View a list of meals by category or search for meals by name.
- Save a meal, view info about the saved meal and can delete the meal anytime they desire.

Built with - frontend: Next.js, React JS, Tailwind CSS, Framer-motion, TypeScript, Redux.

Countries - where are you in the world?

A List of Countries of the world from the Countries REST API, Integrated with the REST countries API V2. Generates individual pages for each country on request showing basic facts about the country and its flag, Optimised for performance and UX. It's very fast for the amount of data being queried and used.

Built with – Next JS, React JS, TypeScript, Tailwind CSS, Framer-motion

Card Details Form

A Single Page App featuring form validation, visualisations and logic on how frontend form / card validations should be done without any package.

Built with – React JS, JavaScript, Tailwind CSS

Education

11/2021 – Present BSc Computer Science & IT, [Bayero University](#)
